Notes To The Financial Statements For The Year Ended 31 December 2020

The financial statements are for Australian Marine Conservation Society Inc as an individual entity. Australian Marine Conservation Society Inc is an incorporated association, incorporated and domiciled in Queensland under the Associations Incorporation Act 1981.

Note 1 Statement of significant accounting policies

Basis of Preparation

The committee has prepared the Financial Statements on the basis that the association is not a reporting entity because there are no users who are dependent on its General Purpose Reports. These Financial Statements are therefore a Special Purpose Financial Report that has been prepared in order to satisfy the reporting requirements of the Australian Charities Not-for-Profit Commission Act 2012 and that the provisions of the Charitable Fundraising Act 1991, Condition 6(3)(c), the Regulations under the Act and the conditions attached to the authority have been complied with.

The financial statements have been prepared on an accruals basis and are based on historical costs modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

Accounting Policies

Revenue

If conditions are attached to a grant or donation which at balance date have not been satisfied, the association recognises the unsatisfied obligation as a liability (Prepaid Income). Grant revenue and donations for which all conditions have been satisfied are recognised as income.

Grants and Donations without conditions are recognised as revenue when received.

Interest income is recognised on receipt.

Revenue from the sale of goods is recognised upon the delivery of goods to customers.

Revenue from the rendering of a service is recognised upon delivery of the service to the customers.

All revenue is stated net of the amount of goods and services tax (GST).

Inventories

Inventories are measured at the lower of cost and net realisable value. Costs are assigned on a specific identification basis and include direct costs and appropriate overheads, if any.

Plant and Equipment

Plant and equipment are measured on the cost basis less depreciation and impairment losses.

The carrying amount of plant and equipment is reviewed annually by the committee to ensure it is not in excess of the recoverable amount from those assets. The recoverable amount is assessed on the basis of the expected net cash flows which will be received from the assets employment and subsequent disposal. The expected net cash flows have not been discounted to present values in determining recoverable amounts.

Depreciation

The depreciable amount of all fixed assets are depreciated over their useful lives commencing from the time the asset is held ready for use.

Notes To The Financial Statements For The Year Ended 31 December 2020

Note 1 Statement of significant accounting policies (continued)

Employee Benefits

Provision is made for the association's liability for employee benefits arising from services rendered by employees to the end of the reporting period. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits.

Contributions are made by the association to employee superannuation funds and are charged as expenses when incurred.

Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at-call with banks, other short-term highly liquid investments with original maturities or three months or less, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the balance sheet.

Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

Income Tax

No provision for income tax has been raised as the association is exempt from income tax under Div 50 of the *Income Tax Assessment Act 1997*.

Intangibles

Software

Software is recorded at cost. Software has a finite life and is carried at cost less any accumulated amortisation and impairment losses. It has an estimated useful life of between one and three years. It is assessed annually for impairment.

Provisions

Provisions are recognised when the association has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions recognised represent the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current year.
